Art Unit: 2616

1. Claims 10-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 10, lines 2-3, it is confusing for reciting "determining, at a receiving point, a size of a largest data packet transmitted over a network path" since it is unclear as to whether a plurality of data packets or a plurality of fragments of a single data packet were transmitted along the network path. Line 7, it is unclear as to whether "the largest data packet" is referring to one largest data packet of a plurality of data packets or a largest fragment of a data packet.

In claim 13, it fails to further limit the claim 10 it depends on. To be more specific, only a single data packet is sent and compared to a predetermined maximum packet size as in claim 13, how can a size of a largest data packet can be determined as in claim 10?

In claim 17, it is missing an essential step of "along the network path, generating at least a fragment of the data message from the data message" before the determining step.

2. Claims 1-4, 6-9, 21, 23-30, 32, 33, 35-39 are allowed.
3. Claims 10-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alpus H. Hsu whose telephone number is (571)272-3146. The examiner can normally be reached on M-F (5:30-3:00) First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wellington Chin can be reached on (571)272-3134. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
